**MAKE MUDDY LAWNS
A THING OF THE PAST**

**NO MUD
NO MESS
NO MOWING**

...JUST A BEAUTIFUL LAWN ALL YEAR ROUND

the**grass**factory

- ✓ IS YOUR LAWN CHILD AND PET FRIENDLY 365 DAYS OF THE YEAR?
- ✓ NO TIME FOR MOWING?
- ✓ SUFFER FROM HAY FEVER?
- ✓ MUDDY FOOTPRINTS INSIDE AFTER FOOTBALL?
- ✓ MESSY, UNSIGHTLY LAWN?
- ✓ DISCOLOURED PATCHES ON YOUR LAWN?

ARE CHILDREN OR PETS TURNING YOUR LAWN INTO A SWAMP?

The perfect solution for those who want a natural looking, hard-wearing lawn every day of the year, artificial grass from **The Grass Factory** puts a stop to the endless cycle of weeding, trimming, and mowing that is, for so many of us, a drain on your free time.

... THEN WHY NOT TRY ARTIFICIAL GRASS FROM THE GRASS FACTORY

THE PERFECT LAWN, ALL YEAR ROUND

- Your lawn will not be turned into a muddy mess by pets
- Looks and feels just like real grass
- No more mud and grass from the lawn inside your home
- No more weeding, cutting or mowing
- No more expense from fertiliser
- Hard-wearing – 15-20 year lifespan
- Low maintenance
- No watering - hosepipe ban solution
- No more parched and boggy lawns
- Non-slip – ideal for children's play areas and football pitches
- UV and stain resistant – colours hold indefinitely
- Simple and quick to install

A LUXURIOUS, REALISTIC ALTERNATIVE TO NATURAL GRASS

ARTIFICIAL GRASS AND YOU

Artificial grass from **The Grass Factory** is available in a range of different shades and lengths, to suit whatever application you want.

- Gardens
- Playing surfaces
- Swimming pool and spa surrounds
- Balconies and patios
- Conservatories
- Schools and nurseries
- Golf putting areas and courses

This super-tough surface will withstand everything children and pets can throw at it. A safe surface that's comfortable to play on, artificial grass from **The Grass Factory** has passed the most stringent safety tests, so you can be sure that it won't graze young skin, and will provide a soft surface for even the most boisterous of children having fun.

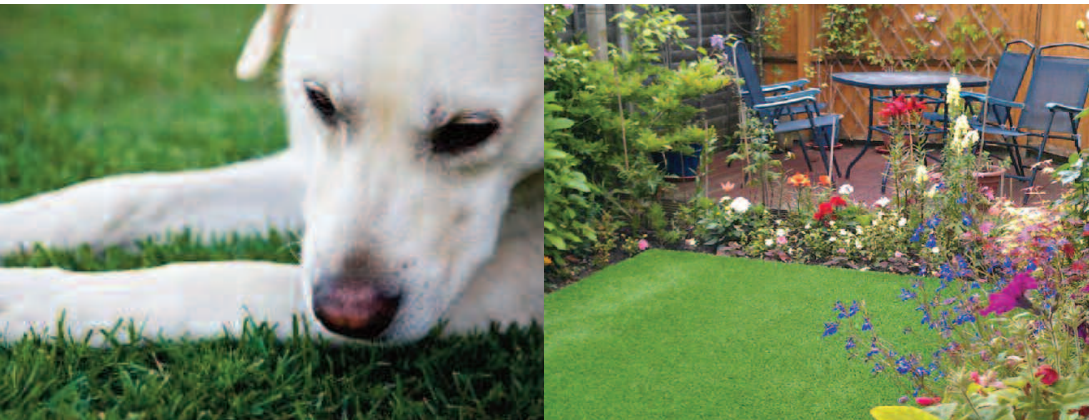

**LET THEM PLAY
ANYTIME, ANY WEATHER**

TECHNICAL TALK

The best bit about your **Grass Factory** artificial lawn is not that it looks fantastic, but that it performs even better. Requiring minimal maintenance, you can say goodbye to trimming, weeding and mowing for good and enjoy your free leisure time - you deserve it.

Our artificial grass has drainage holes to allow water to drain quickly and effectively. Some grasses will require an infill of kiln-dried sand brushed into the grass pile to hold the blades in place, stabilising the fibres and giving extra protection. A weed membrane will prevent plant life and weeds from growing.

**SAY GOODBYE TO GARDEN MAINTENANCE...
AND TREAT YOURSELF TO MORE LEISURE TIME**

Q&A

YOUR QUESTIONS ANSWERED

Is there any maintenance?

Much less than a natural lawn. Debris such as twigs, leaves and seedling may need collecting occasionally, but you can say goodbye to your lawnmower and lawn feed.

How realistic does it look?

People who have seen one of our lawns have often said that until they looked really closely, it's hard to tell that it's actually artificial!

Is it safe for children?

Yes. Many schools and nurseries have installed artificial grass as it provides a clean, safe playing surface for children. It is an ideal football surface too – and your children can keep clean and won't bring mud from your lawn in to your home.

What is it like to walk on?

Artificial grass is soft and springy. A sand dressing, if used, will provide more bounce than natural grass.

Is it suitable for swimming pools and spa surrounds?

Absolutely. Artificial grass is an ideal luxury swimming pool surround. A 1 metre (3ft) gap between the grass and the pool will help prevent chlorine discolouration.

Does the grass fade in the sunlight?

We offer an 8 year colour fast warranty. Our grasses stay beautifully coloured for many years. The fibres have been UV stabilised and meet with quality standard BIN53387.

Is there a guarantee with artificial grass?

Yes, our artificial lawns come with an 8 year manufacturer limited warranty. Our lawns have a life expectancy of at least 15 years.

Is the grass environmentally friendly?

Our grass doesn't need to be watered like real grass. Even in prolonged periods of hot weather, it will stay green and lush without water. It also doesn't need mowing so there are no clippings to dispose of and no electricity or petrol needed for mowers. Our products are also free from lead, heavy metals and cadmium.

Can I just lay it on top of my existing lawn?

We don't advise leaving real grass under the artificial lawn, as it will rot under the artificial grass and disturb the surface. Soil should be removed from the surface and the surface prepared as described in our Artificial Grass Installation Guide.

What about pets?

Your pet will love the soft feel of an artificial lawn. Any mess is easily taken up, just like a real lawn. The grass is stain resistant and rain will naturally wash the lawn and rinses it through small drainage holes in the underside (invisible from above) to prevent it smelling.

Can artificial grass be installed on slopes?

Yes. If it will be walked on, the slope should be no steeper than 1:7 (about 15% or 8.5°).

What sizes do the grasses come in?

Our artificial grass is available in 2m and 4m widths, and in any length you require.

Can you install the grass for me?

Yes, we can arrange for one of our approved fitters to install your new artificial grass lawn. Alternatively for small areas, you may wish to fit the grass yourself – help and advice is only a phone call away.

SAY GOODBYE TO MUDDY PAW PRINTS...
